

For 26 years we've been helping disadvantaged young people who have fallen into our country's juvenile justice system largely from the poverty, violence, trauma, abuse, homelessness and more that they've experienced.

**We need your help.** A donation to the PbS Education and Employment Foundation will support youths with lived experience in juvenile justice to access the education, skills and opportunities they need to succeed.

# EDUCATION AND EMPLOYMENT EQUITY

There are thousands of young people needing and deserving your support. Meet a few who we helped in 2021:

**ALISSA** is studying liberal arts to become a holistic health counselor. She wants to help disadvantaged youths like her.

**AYRICK** who wants to join the Air Force.

**COREY** is the first in his family to graduate high school and go to college. He wants to help his sister do even better.

**GUILLERMO** is now a certified welder and working as an education coordinator assistant.

**JAYCOB** loves working with his hands and wants to be a cement mason and a positive role model.

**MEMPHIS** who wants to get a Masters in Botany so that he can start his own farm to table restaurant.

**SHANNON** aims to become a veterinarian and use animal therapy to help kids with mental health issues and disabilities.

To me, this scholarship shows that I am not alone, there are people out there who want to see me succeed.

Diego, PbS Scholarship Award recipient
